$F_A((1+\beta)/2)$
$F_S((1+\beta)/2)$
one loop, D (AA)
one loop, $-D$ (HH)
two loops, $\mathcal{C}^3$
two loops, $\mathcal{C}^2$
normalised coefficient
(a)
(b)
pairs: $(N_c, n_f) = (3,5)$ left, $(4,2)$ right
relative deviation from curve
β
