(a)
$F_A((1+\beta)/2)$
$F_S((1+\beta)/2)$
one loop, D (AA)
one loop, $-D$ (HH)
two loops, $\mathcal{G}^3$
two loops, $\mathcal{G}^2$
normalised coefficient
β
(b)
relative deviation from curve
pairs: $(N_c, n_f) = (3, 5)$ left, $(4, 2)$ right
β
